

You've already found the perfect lot for your dream home, now you're looking for the right builder & ideal floor plan.

# We Build On Your Lot

Enjoy the benefits of a "big builder"  
on a more personal level.

1. Choose from our extensive portfolio of award-winning home plans. More than 28 different plans are available, some with first floor owner's suite, home offices, one-level living, finished third floors, basements, and more.
2. Personalize your new home at our 2600 square foot Design Studio, where a professional Design Consultant will walk you through the hundreds of interior and exterior selections that will make your home uniquely yours. With LifeStyle Builders, there is no running around town to different stores for your lights, flooring, cabinets, countertops, etc. Our Design Studio offers you the opportunity to make all of these selections and more in one beautifully designed and convenient location.
3. Experienced home building experts to coordinate the job from day one. From plan drawings and budgets, to scheduling and supervision of all trade partners, we will walk you through the homebuilding process, making it a stress-free, enjoyable experience from start to finish.
4. Take advantage of LifeStyle Builders' buying power. Since we build over 50 homes per year, we are able to negotiate better material and labor costs than many smaller builders can provide.
